

ComboBox

object

Utils.UI.Controls.CascadingDropDownList

```
classDiagram
    class ComboBox
    class object
    class CascadingDropDownList["Utils.UI.Controls.CascadingDropDownList"]
    CascadingDropDownList --|> ComboBox
    CascadingDropDownList --|> object
```

The diagram illustrates a generalization relationship. A box labeled 'Utils.UI.Controls.CascadingDropDownList' is positioned below two other boxes, 'ComboBox' and 'object'. Two arrows originate from the top of the 'CascadingDropDownList' box and point upwards to the bottom of the 'ComboBox' and 'object' boxes, indicating that 'CascadingDropDownList' is a specialized version of both 'ComboBox' and 'object'.
